

1

MAPPING INVASIONS IN REAL TIME

C. Adams, MIT Sea Grant College Program

J. Pederson, MIT Sea Grant College Program

2

INVASIVE SPECIES ON KOREAN COASTAL WATERS

D.-K. Ahn, National Fisheries Research and Development Institute, Korea

D. Lim, National Fisheries Research and Development Institute, Korea

Y. Lee (Presenter), National Fisheries Research and Development Institute, Korea

3

PATTERNS OF INVASIONS IN TIME AND SPACE

F. Andaloro, ICRAM, Italy

A. Annunziatellis, ICRAM, Italy

F.M. Passarelli, ICRAM, Italy

S. Agnesi, ICRAM, Italy

E. Azzurro, ICRAM, Italy

L. Castriota, ICRAM, Italy

4

**ADAPTING AQUATIC (FRESHWATER) WEED RESEARCH AND MANAGEMENT
METHODOLOGIES FOR CONTROL OF INVASIVE SEaweEDS**

L.W.J. Anderson, U.S. Department of Agriculture-Agricultural Research Service

5

FACTORS INFLUENCING DISTRIBUTION OF *DIDEMNUM* SP. IN NARRAGANSETT BAY

L.A. Auken, University of New Hampshire

C.A. Oviatt, University of Rhode Island

6

RECREATIONAL VESSEL HULL FOULING AS A TRANSPORT VECTOR FOR AQUATIC INVASIVES

N. Balcom, University of Connecticut

R. Whitlatch, University of Connecticut

R. Osman, Smithsonian Environmental Research

7

**PHENOTYPIC PLASTICITY IN CLAW MORPHOLOGY OF THE INTRODUCED CRAB *CARCINUS
MAENAS* IN RESPONSE TO NATURAL VARIATION IN PREY ARMOR AND WATER
TEMPERATURE**

A.K. Baldrige, Smith College

L.D. Smith, Smith College

8

**NEW RECORD OF *PENILIA AVIROSTRIS* DANA, 1849 (CLADOCERA) IN THE GULF OF ST.
LAWRENCE**

R. Bernier, Fisheries and Oceans Canada

A. Locke, Fisheries and Oceans Canada

9

**APPEARANCE OF THE INVASIVE *CAULERPA RACEMOSA* VAR. *CYLINDRACEA* (SONDER)
VERLAQUE, HUISMAN, BOUDOURESQUE (BRYOPSIDALES, CHLOROPHYTA) ALONG THE
SANTA LIBERATA COAST (SOUTH TUSCANY, ITALY)**

F. Birardi, Orbetello Pesca Lagunare s.r.l.
M. Lenzi, Orbetello Pesca Lagunare s.r.l.
E. Franchi, University of Siena
P. Gennaro, Central Institute for Marine Research
R. Roffilli, University of Siena
D. Solari, Orbetello Pesca Lagunare s.r.l.
S. Focardi, University of Siena

10

RESOLVING THE 100-YEAR DEBATE OVER THE INTRODUCTION OF *L. LITTOREA* TO NORTH AMERICA

A.M. Blakeslee, University of New Hampshire
J.E. Byers, University of New Hampshire

12

THE BARCODE OF LIFE DATA SYSTEM: A TOOL FOR WIDESPREAD AND EFFECTIVE INVASIVE SPECIES MONITORING ON CORAL REEFS

R.E. Brainard, NOAA Pacific Islands Fisheries Science Center
N. Knowlton, Scripps Institution of Oceanography
J. Caley, Australia Institute of Marine Science
G. Paulay, University of Florida
E. Keenan, NOAA Pacific Islands Fisheries Science Center

13

REAL-TIME RISK ASSESSMENT MODEL FOR BALLAST WATER EXCHANGE IN ATLANTIC CANADA

D. Brickman, Department of Fisheries and Oceans, Canada
B. An, Department of Fisheries and Oceans, Canada
C. Nickerson, Department of Fisheries and Oceans, Canada

14

ARE NATIVE EELGRASS (*ZOSTERA MARINA*) MEADOWS AND INVASIVE PACIFIC OYSTER (*CRASSOSTREA GIGAS*) REEFS IN WILLAPA BAY, WASHINGTON ALTERNATIVE STABLE STATES?

Eric Buhle, University of Washington

15

GOING AGAINST THE FLOW: RETENTION, RANGE LIMITS AND INVASIONS IN ADVECTIVE ENVIRONMENTS

J.E. Byers, University of New Hampshire

16

HARBOUR SURVEY FOR INVASIVE SPECIES IN NEWFOUNDLAND, CANADA

A.G. Callahan, Memorial University
T. Baines, Fisheries and Oceans Canada
P. Sargent, Memorial University
R. Boland, Memorial University
R. O'Donnell, Memorial University
S. Kenny, Fisheries and Oceans Canada
C. Vickers, Memorial University
C.H. McKenzie, Fisheries and Oceans Canada
D. Deibel, Memorial University

17

ORGANISM IMPACT ASSESSMENTS: RISK ANALYSIS FOR POST-INCURSION MANAGEMENT

M. Campbell, Australian Maritime College

18

MARINE BIOINVASIONS: THE ASSESSMENT OF IMPACTS AND DIVERSITY

J.T. Carlton, Williams College

19

ASCIDIANS OF THE SOUTHERN GULF OF CHIRIQUÍ, PACIFIC-PANAMA: A NATIVE FAUNA AT RISK TO BIOINVASION

M.R. Carman, Woods Hole Oceanographic Institution

S. Molyneux, Woods Hole Oceanographic Institution

R. Ji, Woods Hole Oceanographic Institution

S. Sievert, Woods Hole Oceanographic Institution

20

REATTACHMENT AND GROWTH STYLES OF NATIVE AND INVASIVE COLONIAL ASCIDIANS

M.R. Carman, Woods Hole Oceanographic Institution

H.M. Allen, Falmouth Academy

21

A RAPID RESPONSE FRAMEWORK FOR ERADICATING MARINE INVADERS

A.L. Chang, University of California

D. Ruiz, G.M. Smithsonian Environmental Research Center

22

INTRODUCTION OF THE WHITE SHRIMP *LITOPENAEUS VANNAMEI* FOR AQUACULTURE PURPOSE: IS IT GOOD OR BAD FOR THAILAND?

S. Chavanich, Chulalongkorn University

V. Viyakarn, Chulalongkorn University

W. Senanan, Burapha University

S. Panutrakul, Burapha University

23

RELATIVE INFLUENCE OF PREDATION AND RECRUITMENT LIMITATION ON THE INVASIVE ASIAN MUSSEL (*MUSCULISTA SENHOUSIA*)

B.S. Cheng, San Diego State University

K.A. Hovel, San Diego State University

24

RECENT INVASIONS BY ASIAN COPEPODS IN THE COLUMBIA-SNAKE RIVER SYSTEM, WASHINGTON, USA

J. Cordell, University of Washington

S.M. Bollens, Washington State University

R. Draheim, Portland State University

M. Sytsma, Portland State University

25

CONTROL OF POTENTIALLY INVASIVE SPECIES PRESENT IN BALLAST WATER THROUGH SHIPBOARD CHLORINE DIOXIDE TREATMENT

A.M. Cox, University of Rhode Island

R.G. Campbell, University of Rhode Island

D.C. Smith, University of Rhode Island

L. Maranda, University of Rhode Island
M.D. Hasson, Ecochlor, Inc.

26

INVASION AND TERRESTRIALIZATION OF INTERTIDAL SALT MARSH BY AN EXOTIC TREE, TAMARISK

J.A. Crooks, Tijuana River National Estuarine Research Reserve
D. Talley, San Francisco Bay National Estuarine Research Reserve
C. Whitcraft, Scripps Institution of Oceanography
L. Levin, Scripps Institution of Oceanography
J. Boland, Boland Ecological Services
J. Gaskin, USDA-ARS-NPARR

27

INCREASING VALUE OF AQUATIC INVASIVE SPECIES: THE RISKS AND BENEFITS OF INCENTIVE-BASED CONTROL PROGRAMS

C.S. Culver, University of California
J.E. Dugan, University of California, Santa Barbara

28

INFLUENCES OF ANTIPOULING TREATMENTS ON MARINE INVASION PATHWAYS

K.A. Dafforn, University of New South Wales
T. Glasby, New South Wales Department of Primary Industries
E. Johnston, University of New South Wales

29

YOU CAN LEAD HORSES TO BALLAST WATER INFORMATION, BUT YOU CAN'T MAKE THEM REMEMBER IT: EVALUATING THE WCBOP'S AQUATIC INVASIVE SPECIES BALLAST WATER OUTREACH

A. Dahlstrom, University of California

30

GENETIC EVIDENCE FOR MULTIPLE CRYPTIC INTRODUCTIONS OF THE INVASIVE COLONIAL HYDROID *CORDYLOPHORA* SPP.

J.A. Darling, U.S. Environmental Protection Agency
N.C. Folino-Rorem, Wheaton College

31

USING GENETIC TOOLS TO ASSESS THE INTRODUCTION AND REGIONAL EXPANSION OF EUROPEAN GREEN CRABS (*CARCINUS MAENAS*)

J.A. Darling, U.S. Environmental Protection Agency
C.K. Tepolt, Independent Contractor, U.S. Environmental Protection Agency
M.J. Blum, U.S. Environmental Protection Agency
M.J. Bagley, U.S. Environmental Protection Agency

32

A BIOPOLLUTION INDEX FOR ASSESSING THE INVASIVENESS OF ALIEN SPECIES

D. Daunys, Klaipeda University
S. Olenin, Klaipeda University
D. Minchin, Marine Organism Investigations, Killaloe

33

HIGH-DENSITY VECTOR EVENTS AND BIOINVASION RISK REDUCTION: ASSESSING THE INFLUENCE OF TRANSIT AND IN-WATER CLEANING ON THE BIOFOULING OF OBSOLETE

VESSELS

I.C. Davidson, Portland State University
G. Ruiz, Smithsonian Environmental Research Center
M. Sytsma, Portland State University

34

ASSESSING COMMERCIAL VESSEL BIOFOULING ON THE U.S. WEST COAST: DENSITY, MAGNITUDE AND FREQUENCY OF PROPAGULE DELIVERY

I.C. Davidson, Portland State University
G. Ruiz, Smithsonian Environmental Research Center
M. Sytsma, Portland State University

35

ARE CITIZEN SCIENTISTS THE SOLUTION TO EARLY DETECTION?

D.G. Delaney, McGill University
B. Leung, McGill University

36

TECHNIQUES TO TREAT SEED MUSSELS (*PERNA CANALICULUS*) ON FARMS INFECTED WITH THE INVASIVE SEASQUIRT (*DIDEMNUM VEXILLUM*) IN THE MARLBOROUGH SOUNDS, NEW ZEALAND

C.M. Denny, Cawthron Institute

37

THE MANAGEMENT OF AN INVASIVE SEA SQUIRT, *DIDEMNUM VEXILLUM*, IN NEW ZEALAND

C.M. Denny, Cawthron Institute
A. Pannell, Marlborough Mussel Company Ltd
A.D.M. Coutts, Cawthron Institute

38

INVASIVE SPECIES DISRUPT THE LONG-TERM DEVELOPMENT OF A SUBTIDAL FOULING COMMUNITY IN THE SOUTHWESTERN GULF OF MAINE

J.A. Dijkstra, University of New Hampshire
L. Harris, University of New Hampshire

39

A RARE EXAMPLE OF HABITAT EXPANSION BY AN INTRODUCED MARINE PREDATOR

N.A. Dobroski, University of Rhode Island
J.T. Carlton, Williams College
R.L. Fineman, Mount Holyoke College
H.C. Olins, Wesleyan University

40

THE ROLE OF COMMERCIAL SHIPPING IN AQUATIC SPECIES INTRODUCTIONS: ANALYSIS OF VESSEL TRAFFIC AND BALLAST WATER DISCHARGE PATTERNS IN CALIFORNIA

N.A. Dobroski, California State Lands Commission
M. Falkner, California State Lands Commission
L. Takata, California State Lands Commission
S. Gilmore, California State Lands Commission

41

EFFECT OF HABITAT ALTERATION AND INVASION BY EXOTIC SPECIES ON MANGROVE ECOSYSTEMS IN FLORIDA

M. Donnelly, University of Central Florida
L. Walters, University of Central Florida

42

POTENTIAL TRANSFER OF *VIBRIO CHOLERAE* BY SHIPS AMONG PORTS IN THE MEDITERRANEAN SEA: THE PORTAL PROJECT

L.A. Drake, U.S. Coast Guard Academy
B. Galil, National Institute of Oceanography, Israel

43

AN EXPERIMENTAL TEST OF EUROPEAN GREEN CRAB (*CARCINUS MAENAS*) FORAGING EFFECTS ON WINTERING SHOREBIRDS

V. Estelle, Colorado State University
E.D. Grosholz, University of California, Davis

44

“INCONSPICUOUS” IMPACTS OF *SPARTINA ALTERNIFLORA* IN A TEMPERATE EASTERN PACIFIC ESTUARIES

B.E. Feist, Northwest Fisheries Science Center
C.J. Harvey, Northwest Fisheries Science Center
J.L. Ruesink, University of Washington
A.C. Trimble, University of Washington

45

ECONOMIC ANALYSIS OF MARINE INVASIVE SPECIES MANAGEMENT AND POLICY

L.M. Fernandez, University of California, Riverside

46

NON-NATIVE AQUATIC ORGANISMS IN THE COASTAL WATERS OF CALIFORNIA

S. Foss, California Department of Fish and Game
P.R. Ode, California Department of Fish and Game
M. Sowby, California Department of Fish and Game
M. Ashe, California Department of Fish and Game

47

ALIEN SPECIES IN THE MEDITERRANEAN SEA – PATTERNS OF INVASION IN TIME AND SPACE

B.S. Galil, National Institute of Oceanography, Israel

48

NONINDIGENOUS INTERTIDAL SPECIES IN BRITISH COLUMBIA, CANADA

G.E. Gillespie, Department of Fisheries and Oceans Canada

49

PUBLIC MONITORING AND GOVERNMENTAL MANAGEMENT OF MARINE BIOINVASIONS IN THE NETHERLANDS

A. Gittenberger, National Museum of Natural History

50

POTENTIAL ECOSYSTEM CHANGES CAUSED BY AN INTRODUCED RED ALGA, *GRATELOUPIA TURUTURU* YAMADA, IN LONG ISLAND SOUND

R. Gladych, University of Connecticut
N.P. Blaschik, University of Connecticut
G.P. Kraemer, State University of New York
R. Whitlatch, University of Connecticut

C. Yarish, University of Connecticut

51

MINIMIZING THE EXPOSURE OF THE NORTHWESTERN HAWAIIAN ISLANDS MARINE NATIONAL MONUMENT TO MARINE ALIEN SPECIES

S. Godwin, Hawaii Institute of Marine Biology & Northwestern Hawaiian Islands Marine National Monument

52

WHO ARE THE MOST IMPACTING INTRODUCED AQUATIC SPECIES IN EUROPE?

S. Gollasch, GoConsult

B. Galil, National Institute of Oceanography, Israel

D. Minchin, Marine Organism Investigations

V. Panov, Russian Academy of Sciences

S. Olenin, Klaipeda University

M. David, University of Ljubljana

53

THE NEW EUROPEAN ON-LINE JOURNAL “AQUATIC INVASIONS”: AN IMPORTANT PART OF EUROPEAN EARLY WARNING SYSTEM ON AQUATIC INVASIVE SPECIES

S. Gollasch, GoConsult

V. Panov, Russian Academy of Sciences

54

***STYELA CLAVA* INCURSION RESPONSE: AN OVERVIEW OF THE NEW ZEALAND GOVERNMENT’S RESPONSE TO A MARINE INVADER**

B.R. Gould, Ministry of Agriculture and Forestry

P. Bolger, Ministry of Agriculture and Forestry

D. Kluza, Ministry of Agriculture and Forestry

A. McFadden, Ministry of Agriculture and Forestry

L. Patston, Ministry of Agriculture and Forestry

55

CAN OPEN-OCEAN BALLAST EXCHANGE PREVENT INVASIONS BETWEEN FRESHWATER PORTS?

D.K. Gray, University of Windsor

T.H. Johengen, University of Michigan

D.F. Reid, National Oceanic and Atmospheric Administration

H.J. MacIsaac (Presenter), University of Windsor

56

PATTERNS AND IMPACTS OF MARINE BIOINVASIONS IN SOUTH AFRICA

C. Griffiths, University of Cape Town

T. Robinson, University of Cape Town

57

SEASONAL COEXISTENCE OF THREE INVASIVE COLONIAL ASCIDIANS (*BOTRYLLOIDES VIOLACEUS*, *BOTRYLLUS SCHLOSSERI* AND *DIDEMNUM* SP.) IN THE GULF OF MAINE

L.G. Harris, University of New Hampshire

J. Dijkstra, University of New Hampshire

58

IDENTIFYING THE ORIGIN OF THE CRYPTOGENIC ASCIDIAN *MOLGULA MANHATTENSIS* (DE KAY, 1843)

D. Haydar, University of Groningen

59

POINTING FINGERS: HOW WAS THE AMUR GOBY (*RHINOGOBIUS BRUNNEUS*) INTRODUCED TO NORTH AMERICA?

P. Heimowitz, U.S. Fish and Wildlife Service, Pacific Region
B. Shields, Oregon State University
S. Chan, Oregon Sea Grant
A. Goto, Hokkaido University

60

THE IMPACTS OF THE INVASIVE CRAB *HEMIGRAPUS SANGUINEUS* ON A CRUSTACEAN-FEEDING GUILD OF FISHES IN LONG ISLAND SOUND

K.B. Heinonen, University of Connecticut
P.J. Auster, University of Connecticut

61

PREDICTING THE FUTURE SPREAD OF AN INVASIVE TUNICATE ALONG BRITISH COLUMBIA'S COASTLINE

L.-M. Herborg, Pacific Biological Station
T.W. Therriault, Pacific Biological Station

62

FROM PRINCIPLE TO PRACTICE: IMPLEMENTING EARLY DETECTION AND RAPID RESPONSE EFFORTS IN MASSACHUSETTS WITH LIMITED RESOURCES

C.A. Hernick, Massachusetts Office of Coastal Zone Management

63

THE INFLUENCE OF SPATIAL SCALE ON THE RELATIONSHIP BETWEEN NATIVE DIVERSITY AND INVASION

C.L. Hewitt, Australian Maritime College
M.L. Campbell, Australian Maritime College
C. Primo, Universidade de Vigo and Australian Maritime College

64

THE INVASION OF THE ATLANTIC AND CHANNEL COASTS OF FRANCE BY THE ALIEN OYSTER, *CRASSOSTREA GIGAS*: ASSESSMENT, CAUSES, ECOLOGICAL AND SOCIO-ECONOMICAL CONSEQUENCES--THE PROGIG RESEARCH PROGRAM

C. Hily, CNRS, IUEM, University of Western Brittany

65

MOLECULAR TOOLS FOR INVASIVE SPECIES DETECTION WHEN SPECIES-LEVEL TAXONOMIC KNOWLEDGE IS SPARSE

K.E. Hoagland, IM Systems Group & National Oceanic and Atmospheric Administration

66

GENETIC VARIATION OF A RECENT INVASION: DIVERSITY WITHIN AND AMONG POPULATIONS OF THE CHARRU MUSSEL

E.A. Hoffman, University of Central Florida
L.J. Walters, University of Central Florida
N.K. Gillis, University of Central Florida

67

DO HISTORY AND GENETICS AGREE? THE INVASION OF BIVALVE *GEMMA GEMMA*

P. Hoos, Moss Landing Marine Laboratories
J. Geller, Moss Landing Marine Laboratories
R. Vrijenhoek, Monterey Bay Aquarium Research Institute

68

BIOSECURITY RISKS POSED BY VESSEL HULL FOULING AND INCURSION RESPONSE TOOLS FOR THEIR MANAGEMENT

G.A. Hopkins, Cawthron Institute
A.D.M. Coutts, Cawthron Institute
B.M. Forrest, Cawthron Institute

69

CRITICAL ANALYSIS OF THE IMPACTS OF INVASION TO THE NATURAL PROCESSES IN HIGHLY VULNERABLE COASTAL AREAS OF BANGLADESH

M.M. Islam, University of Toronto

70

TOWARDS AN ICES CODE OF BEST PRACTISE FOR THE MANAGEMENT OF SHIPS HULL FOULING

A. Jelmert, Institute of Marine Research, Norway
S. Gollasch, Go Consult, Germany

71

TESTING INVASIBILITY THEORY IN MARINE INVERTEBRATE COMMUNITIES BY MANIPULATING THE PROPAGULE SUPPLY OF NONINDIGENOUS SPECIES

E.L. Johnston, University of New South Wales
R.F. Piola, University of New South Wales
B.J. Cumbo, University of New South Wales
G.F. Clark University of New South Wales

72

RESEARCH ACTIVITY ON INVASIVE SPECIES IN MARINE ENVIRONMENTS OF KOREA

E.-L. Kim, National Fisheries Research and Development Institute, Korea
D. Lim, National Fisheries Research and Development Institute, Korea
Y. Lee (Presenter), National Fisheries Research and Development Institute, Korea

73

A RISK ASSESSMENT OF THE CLUBBED TUNICATE *STYELA CLAVA* (ASCIDIACEA) IN NEW ZEALAND

D.A. Kluza, Biosecurity New Zealand
I. Ridgway, University of Wales

74

VESSEL BIOFOULING AS A VECTOR FOR INVASIVE MARINE SPECIES: BIOSECURITY NEW ZEALAND'S RESEARCH PROGRAMME

D.A. Kluza, Biosecurity New Zealand
A. Bell, Biosecurity New Zealand

75

NINE YEARS OF *HEMIGRAPUS SANGUINEUS* IN RYE, NEW YORK: POPULATION DYNAMICS AND INFLUENCE OF HABITAT

G.P. Kraemer, Purchase College (SUNY)

76

DEVELOPING A COMPREHENSIVE BALLAST WATER AND HULL FOULING PROGRAM FOR HAWAII

J.-N. Kushima, Department of Land and Natural Resources, Hawaii

77

***MOLGULA FICUS*, AN ASCIDIAN NONINDIGENOUS TO THE EAST PACIFIC**

G. Lambert, University of Washington

78

BALLAST WATER TREATMENT OF PHYTOPLANKTON: HOW DO WE MEASURE IF A TREATMENT TECHNOLOGY MET THE MARK?

D.J. Lawrence, University of Washington

R.P. Herwig, University of Washington

79

PREVENTING BIOINVASIONS FROM BALLAST WATER: MARCH OF THE TREATMENT TECHNOLOGIES

D.J. Lawrence, University of Washington

R.P. Herwig, University of Washington

J.R. Cordell, University of Washington

80

DESIGNATING AREAS FOR BALLAST WATER EXCHANGE

E.K. Lawrence, Australian Bureau of Rural Sciences

E. Knight, Australian Bureau of Rural Sciences

S. Barry, Australian Bureau of Rural Sciences

R. Summerson, Australian Bureau of Rural Sciences

S. Cameron, Australian Bureau of Rural Sciences

81

THE ROLE OF VIRUSES ON PLANKTON DYNAMICS

J. Lawrence, University of New Brunswick

82

PREDICTIONS IN AN INVADDED WORLD - PART I: USING NICHE MODELS TO PREDICT DISTRIBUTIONS OF MARINE/ESTUARINE SPECIES AT THE HABITAT SCALE

H. Lee, U.S. Environmental Protection Agency

D.A. Reusser, U.S. Geological Survey

83

WISH YOU WEREN'T HERE: GEOGRAPHIC PATTERNS OF INVASION IN PACIFIC COAST ESTUARIES OF THE UNITED STATES

H. Lee, U.S. Environmental Protection Agency

D.A. Reusser, U.S. Geological Survey

84

ECOLOGICAL IMPACTS OF A NEW SUBSTRATUM, INVASIVE-OYSTER-REEFS (*CRASSOSTREA GIGAS*, THUNBERG), ON INTERTIDAL COMMUNITIES, BRITTANY (FRANCE)

M. Lejart, Université de Bretagne Occidentale

C. Hily, Université de Bretagne Occidentale

85

COASTAL SALT MARSH CHANGE INVESTIGATION IN WANGGANG AREA, JIANGSU PROVINCE, CHINA USING LANDSAT TM IMAGERIES

J. Li, Nanjing University

S. Gao, Nanjing University

86

INTERVIEWS FROM PRINCE EDWARD ISLAND, CANADA, ON BOATER HABITS AND THE POTENTIAL SPREAD OF INVASIVE SPECIES

A. Locke, Fisheries and Oceans Canada
E.A. Darbyson, Dalhousie University
J.M. Hanson, Fisheries and Oceans Canada
M. Willison, Dalhousie University

87

EFFECTS OF CLIMATE CHANGE ON THE RISK OF SHIPPING-MEDIATED INVASIONS IN THE SOUTHERN GULF OF ST. LAWRENCE

A. Locke, Fisheries and Oceans Canada

THE ERADICATION OF SNOWFLAKE CORAL ON THE ISLAND OF KAUAI: 18 MONTHS LATER

A.D. Montgomery, Hawaii Division of Aquatic Resources

100

TRANSFER OF HARMFUL ALGAL BLOOM SPECIES IN JAPANESE AND KOREAN COASTAL WATERS THROUGH NATURAL AND HUMAN ASSOCIATED DISPERSALS REVEALED BY MICROSATELLITES

S. Nagai, Fisheries Research Agency of Japan

G. Nishitani, Fisheries Research Agency of Japan
S. Yamaguchi, Fisheries Research Agency of Japan
C. Lian, Asian Natural Environmental Science Center
N. Yasuda, Tokyo Institute of Technology
S. Itakura, Fisheries Research Agency of Japan

101

IDENTIFYING SIMILARITIES: AN APPLICATION FOR THE BALLAST WATER RISK ASSESSMENT

A.L. Neto, Federal University of Rio de Janeiro
L.F.L. Legey, Federal University of Rio de Janeiro

102

MONETARY ASSESSMENT OF ECONOMIC IMPACTS DUE TO SPECIES INVASIONS IN MARINE ECOSYSTEMS: NON-MARKET VALUATION APPLICATIONS IN DECISION MAKING CONTEXT

P.A. Nunes, University of Venice
F.E.E. Mattei, University of Venice

103

ASSESSMENT OF BIOLOGICAL POLLUTION IN AQUATIC ECOSYSTEMS: RATIONALE AND QUANTITATIVE APPROACH

S. Olenin, Klaipeda University
D. Daunys, Klaipeda University
D. Minchin, Marine Organism Investigations

104

MARINE INVADERS IN THE EUROPEAN STRATEGIC RESEARCH PROJECT DAISIE

S. Olenin, Klaipeda University
V. Didžiulis, Klaipeda University
B.S. Galil, Israel Oceanographic & Limnological Research
S. Gollasch, GoConsult
D. Minchin, Marine Organism Investigations
V. Panov, Zoological Institute RAS
M. David, University of Ljubljana

105

THE INVASIVE DINOFLAGELLATE *PROROCENTRUM MINIMUM* (PAVILLARD) SCHILLER IN THE BALTIC SEA: ENVIRONMENTAL TOLERANCE LIMITS AND IMPACT ON PHYTOPLANKTON COMMUNITY

I. Olenina, Klaipeda University

106

USE OF DNA BARCODES FOR DETECTION OF GELATINOUS INVADERS

B.D. Ortman, University of Connecticut
A. Bucklin, University of Connecticut

107

INVADING ECOSYSTEM ENGINEER DRAMATICALLY ALTERS BENTHIC COMMUNITIES IN AND OUT OF MARINE RESERVES

D.K. Padilla, Stony Brook University
S. Gray, Brook University

108

MULTIPLE EPIBIONT UTILIZATION OF THE INTRODUCED PERIWINKLE *LITTORINA LITTOREA*

IN THE GULF OF MAINE

L.C. Page, University of New Hampshire
J.E. Byers, University of New Hampshire

109

ROUND GOBY IN THE BALTIC SEA – AN INVADER OF INCREASING IMPORTANCE

S. Pakkasmaa, Swedish Board of Fisheries
G. Almqvist, Stockholm University

110

PRIORITIES FOR MARINE BIOSECURITY RESEARCH

N.S. Parker, Biosecurity New Zealand

111

POLLUTION DECREASES NATIVE DIVERSITY AND INCREASES INVADER DOMINANCE

R.F. Piola, University of New South Wales
E.L. Johnston, University of New South Wales

112

AQUATIC INVADERS: A NATIONAL PARTNERSHIP TO UTILIZE FREE CHOICE LEARNING TO REDUCE INTRODUCTION AND SPREAD OF AQUATIC INVASIVE SPECIES

A.J. Power, University of Georgia
P. Sloan, North Carolina Aquarium at Fort Fisher
K.M. Patterson, North Carolina Sea Grant

113

INVASIVE POLYCHAETES (ANNELIDA, SPIONIDAE) IN THE ATLANTIC AND PACIFIC OCEANS

V.I. Radashevsky, Russian Academy of Sciences

114

INTERSPECIFIC COMPETITION BETWEEN FOUR INVASIVE SPECIES IN BRUDENELL RIVER, PRINCE EDWARD ISLAND, CANADA

A.P. Ramsay, University of Prince Edward Island
J. Davidson, University of Prince Edward Island
D. Bourque, Fisheries and Oceans Canada

115

PREDICTIONS IN AN INVADDED WORLD -- PART II: USING NICHE MODELS TO PREDICT DISTRIBUTIONS OF MARINE/ESTUARINE SPECIES AT THE ESTUARY SCALE

D.A. Reusser, U. S. Geological Survey
H. Lee, U.S. Environmental Protection Agency

116

THE MEDITERRANEAN SEA IS A BIOINVASION HOTSPOT: TEMPORAL, SPATIAL AND ECOLOGICAL PATTERNS

G. Rilov, Oregon State University

146

ESTABLISHED POPULATION OF THE NORTH AMERICAN HARRIS MUD CRAB, *RHITROPANOPEUS HARRISII*, IN THE PANAMA CANAL

D.G. Roche, McGill University
M.E. Torchin, Smithsonian University

117

THE EFFICACY OF BALLAST WATER EXCHANGE FOR PREVENTING THE SPREAD OF NONINDIGENOUS SPECIES AMONG THE FRESHWATER AND ESTUARINE PORTS OF THE UNITED STATES AND EUROPE

S. Santagata, Smithsonian Environmental Research Center
Z.R. Gasiunaite, Coastal Research and Planning Institute
H. Manto, Klaipeda University
E. Verling, University of Washington
K. Eason, Smithsonian Environmental Research Center
J.S. Cohen, Smithsonian Environmental Research Center
K. Bacela, University of Lodz
G. Quilez-Badia, Smithsonian Environmental Research Center
T.H. Johengen, University of Michigan
D.F. Reid, National Oceanic and Atmospheric Administration
G.M. Ruiz, Smithsonian Environmental Research Center

RISK ASSESSMENT OF AN INVADER: *RAPANA VENOSA* IN THE NORTHERN ADRIATIC SEA

D. Savini, University of Pavia
A. Occhipinti-Ambrogi, University of Pavia

119

DNA BARCODING: AN EMERGING STANDARD FOR SPECIES IDENTIFICATION BY NON-TAXONOMISTS

D.E. Schindel, Smithsonian Institution
K. Ferrell (Presenter), Smithsonian Institute

120

COORDINATING BALLAST WATER REPORTING BETWEEN FEDERAL AND STATE PROGRAMS: A PILOT PROJECT ON THE LOWER COLUMBIA RIVER

C. Simkanin, Portland State University
M. Sytsma, Portland State University
G.M. Ruiz, Smithsonian Environmental Research Center
A.W. Miller, Smithsonian Environmental Research Center

121

THE ALLOMETRY OF INVASIVE CRAB-NATIVE PREY SIZE INTERACTIONS AT DIFFERENT TEMPERATURES: A PREDICTOR OF INVASION SUCCESS?

L.D. Smith, Smith College
E.A. Callaghan, Smith College

122

THE INTERNET AS A DISPERSAL MECHANISM FOR LIVE MARINE SPECIES

L.D. Smith, Smith College
K.M. Hornby, Smith College

123

ALTERNATIVES TO MITOCHONDRIAL MARKERS FOR PHYLOGENETICS AND POPULATION GENETICS IN *DIDEMNUM* SP.

L.M. Stefaniak, University of Connecticut
H. Zhang, University of Connecticut
R.B. Whitlatch, University of Connecticut
G. Lambert, University of Washington

124

DOES SEA TEMPERATURE LIMIT THE RATE AND RANGE OF EXPANSION FOR NON-NATIVE ASIAN SHORE CRABS IN MAINE (USA)?

E.H. Stephenson, University of Maine
R.S. Steneck, University of Maine
R.H. Seeley, Cornell University
E. McDonald, Cornell University
A. Demeo, University of Maine

125

DEVELOPMENT OF MOLECULAR PROBES FOR BETTER MANAGEMENT OF INVASIVE TUNICATE SPECIES

S.E. Stewart-Clark, Atlantic Veterinary College
A. Siah, Atlantic Veterinary College
S. Greenwood, Atlantic Veterinary College
J. Davidson, Atlantic Veterinary College
F.C.J. Berthe, Atlantic Veterinary College

126

NEGATIVE IMPACTS OF THE INVASIVE SEA URCHIN (*CENTOSTEPHANUS RODGERSII*) ON COMMERCIALLY FISHED ABALONE (*HALIOTIS RUBRA*)

E.M.A. Strain, University of Tasmania
C.R. Johnson, University of Tasmania
R.J. Thomson, University of Tasmania

127

NAVIGATING FROM PAPER TO IMPLEMENTATION: CALIFORNIA'S PERFORMANCE STANDARDS FOR BALLAST WATER TREATMENT

L.T. Takata, California State Lands Commission
M. Falkner, California State Lands Commission
S. Gilmore, California State Lands Commission

128

MODELING BIOLOGICAL UNCERTAINTY RELATED TO THE CONTROL OF SPECIES INTRODUCTIONS VIA BALLAST WATER

J.F.R. Tavares, University of Delaware
J.J. Corbett, University of Delaware
J. Firestone, University of Delaware
J.J. Winebrake, Rochester Institute of Technology

129

NATIVE GASTROPODS AND INTRODUCED CRABS: SHELL MORPHOLOGY AND RESISTANCE TO PREDATION IN THE NEW ENGLAND ROCKY INTERTIDAL ZONE

S.J. Teck, University of California, Santa Barbara

130

AQUATIC INVASIVE SPECIES IN THE STRAIT OF GEORGIA, BRITISH COLUMBIA, CANADA

T.W. Therriault, Department of Fisheries and Oceans Canada

131

PARASITE RELEASE AND BIOTIC RESISTANCE IN INTRODUCED POPULATIONS OF THE SAIL-FIN MOLLY, *POECILIA LATIPINNA*

M.E. Torchin, Smithsonian Tropical Research Institute

132

PHYSICAL FACTORS MEDIATE EFFECTS OF GRAZING BY A NONINDIGENOUS SNAIL SPECIES ON SALT MARSH CORDGRASS, *SPARTINA ALTERNIFLORA* IN NORTHEASTERN US SALT MARSHES

M.C. Tyrrell, Wells National Estuarine Research Reserve
M. Dionne, Wells National Estuarine Research Reserve

147

ESTABLISHMENT OF THE COLONIAL ASCIDIAN *DIDEMNUM* SP. ON GRAVEL HABITATS OF NORTHERN GEORGES BANK – EFFECTS ON BENTHIC FAUNA AND A PROBABLE SOURCE FOR FURTHER INFESTATION OF THE BANK

P.C. Valentine, U.S. Geological Survey
J.S. Collie, University of Rhode Island
R. Reid, NOAA Fisheries

133

DETECTION OF NONINDIGENOUS MARINE INVERTEBRATES IN A MEDITERRANEAN INDUSTRIAL PORT USING DNA ASSISTED IDENTIFICATION TECHNIQUES

C. Vogler, Universität Göttingen
G. Wörheide, Universität Göttingen

134

PRACTICAL ASPECTS OF BALLAST WATER MANAGEMENT

M. Voigt, Hamann AG, Germany

135

POPULATIONS OF THE INTRODUCED ALGA *UNDARIA PINNATIFIDA* SUFFERING DIFFERENT ANTHROPOGENIC PRESSURES DISPLAY DISSIMILAR GENETIC PROPERTIES

M. Voisin, Station Biologique de Roscoff
F. Viard, Station Biologique de Roscoff

136

OUTREACH TO REDUCE THE LIKELIHOOD OF FUTURE INTRODUCTIONS OF THE GREEN ALGA *CAULERPA TAXIFOLIA* VIA AQUARIUM RELEASES

L.J. Walters, University of Central Florida
S. Zaleski, University of Southern California

137

PRELIMINARY INVESTIGATIONS ON THE MOLLUSCAN BIODIVERSITY SAMPLED DURING THE BIOLOGICAL PORT SURVEY OF MOMBASA, KENYA

N.N. Wambiji, Kenya Marine & Fisheries Research Institute
E. Mrabu, Kenya Marine & Fisheries Research Institute
D. Odongo, Kenya Marine & Fisheries Research Institute
V. Wanjeri, Kenya Marine & Fisheries Research Institute
I. Mwebi Kenya Marine & Fisheries Research Institute

138

THE STRATEGIES OF AQUATIC INVASIVE ALIEN SPECIES IN CHINA

Y. Wang, Shandong University

139

A NEW INVASION OF AN OLD INVADER: *BATILLARIA ATTRAMENTARIA* IN SAN FRANCISCO BAY, CA, USA

H.W. Weiskel, University of California, Davis & San Francisco Bay National Estuarine Research Reserve
E.D. Grosholz, University of California, Davis

J.E. Byers, University of New Hampshire
T.C. Huspeni, University of Wisconsin, Stevens Point
C. Zabin, Smithsonian Environmental Research Center
B.A. Mohammad, Smithsonian Environmental Research Center

140

**POTENTIAL RISKS OF THE INTRODUCTION OF NONINDIGEOUS *PENEAUS VANNAMEI* FOR
AQUACULTURE PRACTISES IN ERITREA**

I.T. Weldemichael, Wageningen University

141

**FACTORS INFLUENCING INVADER SUCCESS IN COASTAL ECOSYSTEMS: A 20 YEAR
RETROSPECTIVE LOOK AT STUDIES OF SOUTHERN NEW ENGLAND NON-NATIVE ASCIDIANS**

R.B. Whiltatch, University of Connecticut
R.W. Osman, Smithsonian Environmental Research Center

142

**MUDDYING THE WATERS: FACTORS COMPLICATING OUTREACH AND COMMUNICATION
ABOUT INVASIVE SPECIES**

W.Y. Wong, Brown University

143

WILL THE EUROPEAN GREEN CRAB PERSIST IN THE PACIFIC NORTHWEST?

S. Yamada, Oregon State University
G. Gillespie, Department of Fisheries and Oceans Canada

144

GREAT BALLS OF BRYOS: NOVEL SUBSTRATE ON THE MUD FLATS IN SAN FRANCISCO BAY

C.J. Zabin, Smithsonian Environmental Research Center
R. Obernolte, University of California, Davis
J. Gentry, Marine Science Institute

145

**STUDY IN GEOGRAPHIC DISTRIBUTION OF MICROALGAE *ALEXANDRIUM TAMARENSE* AND
ALEXANDRIUM MINUTUM BASED ON INTERNAL TRANSCRIBED SPACER SEQUENCES
ANALYSIS**

L. Zheng, State Oceanic Administration, China
X. Han, Chinese Academy of Sciences
Y. Zhang, Chinese Academy of Sciences
J. Zou, Chinese Academy of Sciences
X. Wang, State Oceanic Administration, China
