

STREAM GRANTS

Solutions Through Research, Education & Art in Massachusetts

MIT Sea Grant is excited to announce a new grants program supporting 1-year projects <\$10,000 open to a diversity of Massachusetts applicants.

STREAM Grants will support:

1. **Small research projects** aligned with our coastal and marine focus areas;
2. **Seed funding** for exploratory or innovative efforts in industry, education, extension, or research;
3. **Undergraduate or graduate student support** to expand an independent or class research project;
4. **P-12 initiatives** that connect classrooms with coastal or marine science and engineering; and
5. **Rapid response projects** addressing a current challenge or driver.

Eligibility

STREAM Grants are **open to a diversity of Massachusetts applicants**, including P-12 educators, faculty and students from Massachusetts universities, individuals and artists working with museums and nonprofit organizations, and many others!

Focus Areas

Proposed projects must reflect objectives outlined in the [MIT Sea Grant Strategic Plan](#) and align with one or more focus areas:

- **Healthy Coastal Ecosystems**
- **Sustainable Fisheries and Aquaculture**
- **Resilient Communities and Economies**
- **Environmental Literacy and Workforce Development**

Diversity, Equity, Inclusion & Justice

Express how the proposed project will engage and reflect the diversity of Massachusetts communities and stakeholders.
